**Attachments:** RE: Comments on the RD Work Plan  
  
**Categories:** 11-19 to 1-10 2014

Kevin,

Below is a resubmittal of the response to FMC's RTC, I submitted to you via email on November 19, 2013. I have added proposed resolutions.

As per your request I have looked over the response to the groundwater RTC and have nothing to add at this time.

DEQ has the following responses to FMC's Response to Comments on the August 12, 2013 Remedial Design Work Plan.

1. DEQ is concerned by the condescending tone of many of FMC's responses.  
Proposed Resolution: No changes to the document required.
2. FMC's response to DEQ specific comment #6 is still technically incorrect, as it was in all other site documents in which similar statements have appeared.  
Proposed Resolution: No changes to the document would be agreeable but are not expected.
3. FMC's response to DEQ specific comment #10, #11 and Extraction Zone Hydrogeologic Study Work Plan general comment 1 is correct in that a permit for well construction is not required under CERCLA; however, FMC is required to construct monitoring and extraction wells in compliance to Idaho code.  
Proposed Resolution: The text should state all monitoring and extraction wells will comply with Idaho well construction standards.

-

Regards,

---

**Subject:** New and Old documents to review

- 1) As I previously asked, in order to be able to move forward on the Design Work Plan, I need the following by the end of the day on Tuesday December 3:
  - a) List of the responses from FMC that you do not agree with.
  - b) Brief response as to why or what the issue is.
  - c) A proposed resolution.

We will discuss these at our team meeting next week.

- 2) We now have the results of the Gamma Cap Test Plan. Please provide me with your comments by the end of the day December 17.
- 3) Bernie and I have reviewed the responses to FMC's groundwater comments and incorporated the comments we received from the Tribes. Attached is our draft response to FMC. I have included margin notes and responses to the Tribes comments. The final response will not include these notes. I plan on sending these out tomorrow. Please take a quick look.

Kevin
